TROLLEYZ

Trolleyz is the fastest growing suitcase brand in Europe. And for a good reason. This is the place where style meets travel. We're dedicated to make every holiday with trolleyz one to never forget by making sure every angle on you is picture perfect. A perfect combination between looks, comfort, quality and the right amount of space. We got you! Try us and fall in love. If not with how we see the world, then at least with the vibrant colours.

As much as we care about looks and travel comfort, we care even more about sustainability. The better for you, the better for the world. That's why our suitcases are made of the strongest materials. Especially - this time in the spotlight - our Paris No.5 and Venice No.10 collection. Our premium collection is made of 100% polypropylene, one of the strongest materials there is for suitcases and that's why the suitcase will last a very long time. Not without reason that we offer a 2 year warrantee on all our suitcases.
